

Technical drawing of a cross-section of a wall and floor assembly. The wall has a thickness of 200 units. The floor assembly consists of a base layer and a top layer. The total width of the floor assembly is 616 units, and the width of the top layer is 576 units. The top layer is supported by a diagonal brace on the right side.

Technical drawing of a rectangular box with the following dimensions:

- Overall width: 410
- Overall height: 610
- Internal width: 370
- Internal height: 570
- Top flange width: 20
- Bottom flange width: 20
- Side flange width: 20
- Internal diagonal brace length: 100
